

SPILL

This tab is for guitar using chord forms capoed up three frets. The g and the c chords have an added note on the third fret, second string. Anyone know that chord name? Hope this helps along with the piano version of this song

Intro G c em d g c em d em

Em am em d
I've been stuffed down underneath the frozen ground

Em am c d
While they walk above in giant steps surround me

F fm c d
Ready wait til I lose my place

G c em d g
Breaking up, I'm standing still

C em d em am c d em am c d
I dissipate like an oil spill
